

About Petro Clear

Petro Clear is a division of Champion Laboratories. We manufacture filters for all types of fuel and liquids. Our experience in manufacturing filters is built on more than half a century of filtration experience and collaboration with leading dispenser and automobile manufacturers.

We believe in a real business approach to our industry that calls for quality products, competitive prices and outstanding service. We are committed to consistently delivering better quality products and services to our customers.

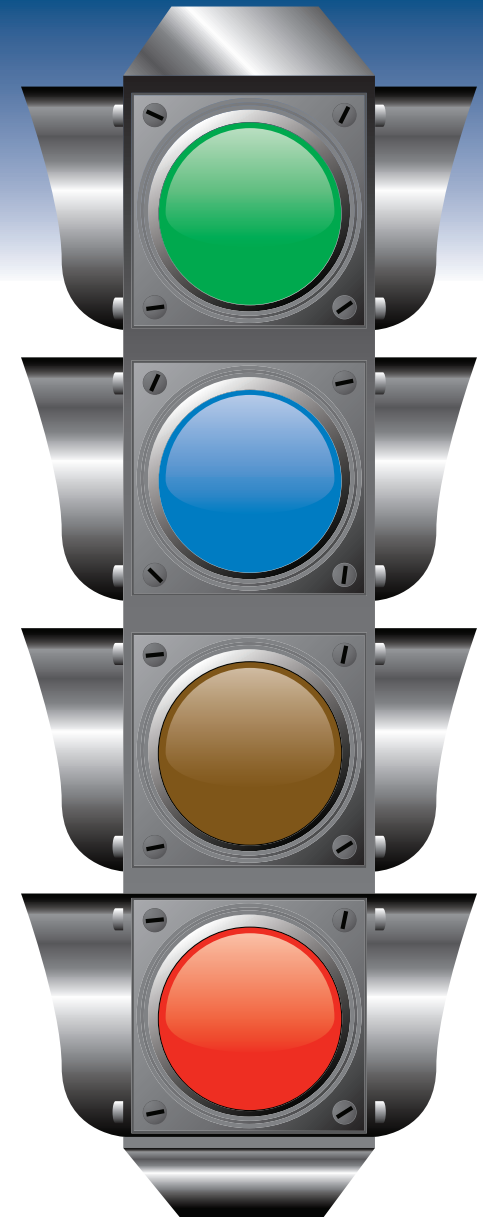

Spin-On Filters

For years the industry standard, we manufacture a complete product line with a wide range of options. Filters for high flow, extended life, and phase separation. Because we are a division of Champion Laboratories, we have a complete research and development lab to help solve your problem.

Elements and Replacement Cartridges

Filter elements for use at truck stops, card-lock sites and other commercial or industrial applications. They are designed to remove contaminants such as dirt, water and emulsified water.
